

Aisc 13th Edition

The creation of the Beginner's Guide to the Steel Construction Manual (BGSCM) was prompted by the major rewrite of the AISC specification that appeared in the 13th edition of the Steel Construction Manual (SCM). When textbooks were slow to respond to the change, I started thinking that a web based approach would be more responsive.

Historic Steel Construction Manuals are only available to AISC members. Notes about the PDFs: The manuals are best viewed using Adobe Reader, which displays a comprehensive table of contents within the application's bookmarks pane. Each file was processed using OCR (optical character recognition) software, so the contents are fully text searchable.
