In today's uncertain world, storms will arise that test your faith in a loving heavenly Father. At times, the winds and waves of the world's deceptions will roll in and seek to erode your confidence in God.

Without a firm foundation in the truth of God's Word, you may be tempted to go

Page 53/178

of course and accept less than God's best for you. However, when you hear Jesus' words, receive them, and put them into practice, you will construct a life the torrents cannot shake, "because it was well built" (Luke 6:48). The Purple Book will help you understand foundational truths that God wants you to

Page 54/178

hear on topics such as sin, salvation, spiritual gifts, prayer, worship, generosity, and evangelism. It will show you how the Bible is "God-breathed and is useful for teaching, rebuking, correcting and training in righteousness" (2 Timothy 3:16). It will help you understand that the faith you hold

Page 55/178

has true power to change lives and transform nations. It will give you a solid foundation the enemy cannot dismantle—and a heart shaped by knowledge of God's Word.

Think you're too busy to study the Bible? And yet, do you hunger for spiritual "meat" that will help you grow as a

Christian? Enduring Faith, an eight-week Bible study, delivers the perfect balance of in-depth study and manageable homework. Written in a devotional style with real-life examples, each day's reading is paired with discussion questions and space for journaling. You'll answer questions like: What's the

Contrary to some common assumptions, Jesus is not the ultimate Answer Man, but more like the Great Questioner. In the Gospels Jesus asks many more questions than he answers. To be precise, Jesus asks 307 questions. He is

asked 183 of which he only answers 3.

Asking questions was central to Jesus ' life and teachings. In fact, for every question he answers directly he asks—literally—a hundred. Jesus is the Question considers the questions Jesus asks—what they tell

***Jesus Is the
Question***

***Teaching the
Way of Jesus***

Adolescenceâ€™ beginning with the onset of puberty and ending in the mid-20sâ€™ is a critical period of development during which key areas of

Page 104/178

the brain mature and develop. These changes in brain structure, function, and connectivity mark adolescence as a period of opportunity to discover new vistas, to form relationships with peers and adults, and to explore one's developing identity. It is also a period of

resilience that can ameliorate childhood setbacks and set the stage for a thriving trajectory over the life course. Because adolescents comprise nearly one-fourth of the entire U.S. population, the nation needs policies and practices that will better leverage these developmental

Page 106/178

opportunities to harness the promise of adolescenceâ€™ rather than focusing myopically on containing its risks. This report examines the neurobiological and socio-behavioral science of adolescent development and outlines how this knowledge can be

Page 107/178

applied, both to promote adolescent well-being, resilience, and development, and to rectify structural barriers and inequalities in opportunity, enabling all adolescents to flourish.

Disciples Making
Disciples: Guide for
Covenant Discipleship
Groups and Class

Page 108/178

Leaders by Steven W. Mankar is for pastors, Covenant Discipleship group members, and class leaders. It provides information needed to organize the ministry, form groups, write a covenant, lead a meeting, support groups so they help the congregation live out its mission of

Page 109/178

making disciples for the transformation of the world. The book also describes the office of class leaders and how to introduce this powerful disciple-making office to the congregation.

At a time when lesbian, gay, bisexual, and transgender individuals--often referred to under the

Page 110/178

umbrella acronym
LGBT--are becoming
more visible in society
and more socially
acknowledged,
clinicians and
researchers are faced
with incomplete
information about
their health status.
While LGBT
populations often are
combined as a single
entity for research

Page 111/178

and advocacy purposes, each is a distinct population group with its own specific health needs. Furthermore, the experiences of LGBT individuals are not uniform and are shaped by factors of race, ethnicity, socioeconomic status, geographical location, and age, any of which

can have an effect on health-related concerns and needs. The Health of Lesbian, Gay, Bisexual, and Transgender People assesses the state of science on the health status of LGBT populations, identifies research gaps and opportunities, and outlines a research

Page 113/178

agenda for the National Institute of Health. The report examines the health status of these populations in three life stages: childhood and adolescence, early/middle adulthood, and later adulthood. At each life stage, the committee studied mental health, physical health, risks

Page 114/178

and protective factors, health services, and contextual influences. To advance understanding of the health needs of all LGBT individuals, the report finds that researchers need more data about the demographics of these populations, improved methods for collecting and

analyzing data, and an increased participation of sexual and gender minorities in research. The Health of Lesbian, Gay, Bisexual, and Transgender People is a valuable resource for policymakers, federal agencies including the National Institute of Health (NIH), LGBT

to turn from the
dulling effects of food
and the dangers of
idolatry, and to say
with some simple fast:
"This much, O God, I
want you." Our
appetites dictate the

Page 117/178

direction of our lives -
whether it be the
cravings of our
stomachs, the
passionate desire for
possessions or
power, or the longings
of our spirits for God.
But for the Christian,
the hunger for
anything besides God
can be an arch-
enemy. While our
hunger for God - and

Page 118/178

Him alone - is the only thing that will bring victory. Do you have that hunger for Him? As John Piper puts it: "If we don't feel strong desires for the manifestation of the glory of God, it is not because you have drunk deeply and are satisfied. It is because we have nibbled so long at the table of the

Page 119/178

world. Our soul is stuffed with small things, and there is no room for the great." If we are full of what the world offers, then perhaps a fast might express, or even increase, our soul's appetite for God. Between the dangers of self-denial and self-indulgence is this path of pleasant pain

Page 120/178

called fasting. It is the path John Piper invites you to travel in this book. For when God is the supreme hunger of your heart, He will be supreme in everything. And when you are most satisfied in Him, He will be most glorified in you.

that the best way to carry that out is through small groups of believers. Just like the first-century church, small groups form the foundation to take the gospel to the ends of the earth.

Groups walks the reader through the stages of gathering, launching, leading, and multiplying a gospel-centered small group. There are also follow-up questions for discussion and reflection at the

end of each section, and practical resources that can be implemented immediately by the small group leader. Jesus left his followers with a task—the Great Commission. This book will help

New evidence this year corroborates the rise in world hunger observed in this report last year, sending a warning that more action is needed if

we aspire to end world hunger and malnutrition in all its forms by 2030. Updated estimates show the number of people who suffer from hunger has been growing over the past three years, returning to prevailing levels from almost a decade ago. Although progress continues to be made in reducing child stunting, over 22

percent of children under five years of age are still affected. Other forms of malnutrition are also growing: adult obesity continues to increase in countries irrespective of their income levels, and many countries are coping with multiple forms of malnutrition at the same time – overweight and obesity, as well as

Page 173/178

anaemia in women, and child stunting and wasting.

This is the teachers guide edition to this great study of the fundamental beliefs of the Christian faith. With topics ranging from "God: His Character and Attributes" to "The Church: Fellowship and Worship," this study is ideal to disciple new

believers or to realize afresh what it means to believe in Jesus. The teachers guide contains all the answers to the 13 lessons taught in the accompanying students edition along with excellent teaching notes to prepare the leader to guide the group.

Laudato Si 'is Pope Francis' second encyclical which focuses

on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy
