

Popsicle Stick Tower Lesson Plans

See how your tower responds when you turn the fan speed on low. When we made ours, we had to debug some problems. For example, our tower tipped over, our tennis ball kept falling off, and the weight of the tennis ball bent our tower. If any of these things happen to you, figure out a way to fix the problem so that your tower works as expected.

Students work in groups, within in their groups they are given 15 popsicle sticks. They count off 4 beats and then clap a four beat rhythm. Students use the popsicle sticks to notated the rhythm on the floor as a group.

Popsicle Stick Tower Lesson Plans - videos.bespokify.com

** Lay Popsicle sticks for the roof. * Cut narrow strips of construction paper. Weave strips in and out of the supports on each side. * Glue ends. * Tie together small bunches of the dried grass, then tie each bunch to main roof beam on each. Use glue to help keep in place. * Trim grass to even roof line.*
